Next steps for the Committee

1. Continue gathering more detailed information.

Over the next few months, the Facility Enhancement Committee will work to gather project estimates, evaluate what we can reasonably afford, and consider the best options for addressing our facility needs.

2. Schedule the next congregational meeting.

Once this information has been gathered and evaluated, we will schedule another congregational meeting to present our findings, discuss possible paths forward, and share any recommendations from the Facility Enhancement Committee.

Our desire throughout this process is to move forward together, faithfully stewarding what God has entrusted to us for His glory and the good of His church.
